During the month of February we visited many rural communities, with the purpose to see the children who started their new school year and provide them some school supplies that we receive from the Global packages program, children known as the green backpacks.

The kids received our spiritual orientation and in same this support that the parents also were happy because in this difficult economic time for them it was a great support offered by LHM and OGT that did possible to send this help to Nicaragua.

American Lutheran brothers and sisters in Christ who visited Nicaragua offered some support in school and communities where LHM is bringing the Message. They were visiting the country and found our office and wanted to support elementary school where the condition are very uncomfortable for the kids then they decided to bring some school material to them.
